

Prepping Your *Enclosed* Trailer

Before you rent out your enclosed trailer, taking the time to outfit it properly makes a huge difference. Renters expect a safe, functional, and easy-to-use setup—and the right gear helps protect your trailer and their cargo. Below is a step-by-step guide on how to prepare your enclosed trailer with E-track, tie-downs, straps, and signage so it's rental-ready and professional.

Keep It Stupid Simple!

We've attached a self use checklist to help you get your new enclosed trailer making you money! Enclosed trailers to some people may feel very overwhelming but the best thing to do is keep it simple! Trailer, load securement options, Safeguarding both individuals and their belongings. With an enclosed trailer, there is so much real estate on the sides. Make sure to utilize that space to help promote your brand.

Always remember your customers want a simple but well maintained trailer that they feel they're getting a value. Don't cheap out.
